Sponsor our fifth year

Put your organization in front of Central Ohio's data community

Data Day is the annual one-day data conference hosted by the Regional Data Roundtable (RDR) at MORPC, which serves more than 95 local governments across a 15-county region. Attendees learn how Central Ohio uses, secures, governs, and visualizes data. Data Day is one of MORPC's five signature events, and 2027 is its fifth year.

200+
Attendees each year

75+
Organizations across the region

4.4/5
Attendee rating, two years running

- **A targeted audience:** data leaders, practitioners, and analysts from local government, nonprofits, education, and civic-minded business, in one room for a full day.
- **Direct engagement:** host or moderate a breakout, staff an exhibitor table, and meet prospective partners, clients, and talent.
- **Visibility:** your logo appears on all event promotion. Higher tiers put your team on the plenary stage.
- **Student scholarships:** bring college students to Data Day and into conversation with your organization.
