DATA DAY

MID-OHIO REGIONAL MORPC PLANNING COMMISSION

Data Day 2027 Champions: Call for Proposals Promo Kit

How this works

Two things, both quick. Do one or both.

1. **Share the call.** Post or forward it through your channels: email, LinkedIn, your organization's newsletter, a team meeting.
2. **Nudge two or three people.** Think of a colleague or team doing work the region should hear about, and ask them to submit.

MORPC staff review every proposal and make every selection. Your part ends once you've shared or nudged.

Please do not promise anyone a slot, offer to review or score proposals, or share what others have submitted. If your own team is submitting, that's great; staff handle the review the same way as any other proposal.

Key dates

Milestone	Date
Call open	Now
Proposals due	Monday, November 30, 2026
Speakers hear back	December 2026
Data Day 2027	Thursday, February 18, 2027

The deadline is the Monday after Thanksgiving, so many people will want to submit before the holiday. **Send your nudges by Friday, November 20** for the best chance of landing them.

Why present at Data Day

Copy this into an email or post as-is, or trim it to fit.

> **Present at Data Day 2027.** Data Day is Central Ohio's annual conference for the public-sector data community, and 2027 is its fifth year. Each year it draws 200+ people from 75+ organizations across local governments, nonprofits, educational institutions, and civic-minded businesses. A 45-minute session puts your project, method, tool, or lesson learned in front of the practitioners and decision-makers who can use it. Every data topic and every skill level is welcome, and this year the program especially encourages proposals on data governance, data management, data analysis, and data infrastructure. Proposals are due Monday, November 30, 2026.

Short version (one line):

> Doing data work the region should hear about? Data Day 2027 wants your session proposal by November 30: https://tinyurl.com/dataday-cfp

Reasons that land with hesitant presenters

- **Your work doesn't have to be finished or flashy.** Lessons learned, a method that saved time, or a project that went sideways all make strong sessions.
- **The room is your peers.** Attendees are people doing the same kind of work across the region, so practical detail is welcome.
- **Any level works.** Sessions range from "no technical background needed" to advanced.
- **The form is short.** A title, up to three objectives, a 100-word description, a 300-word abstract, speakers, skill level, up to two topic tags, and how you'll engage the room.

Suggested copy for sharing

Adapt freely. Your own voice works better than ours. Post from your own account, and please use the graphics as provided.

LinkedIn post

> The Call for Proposals for Data Day 2027 is open.
>
> Data Day is Central Ohio's annual conference for the public-sector data community, hosted by MORPC, and this February marks its fifth year. If you're working on a project, method, or tool that others in the region could learn from, this is a great room to share it in.
>
> Every data topic is welcome, with extra interest this year in data governance, management, analysis, and infrastructure.
>
> Proposals due: Monday, November 30
>
> Data Day: Thursday, February 18, 2027, Center for Workforce Development, Columbus State

Newsletter or email blurb

> **Data Day 2027: Call for Proposals now open**
>
> MORPC's fifth annual Data Day returns Thursday, February 18, 2027, at the Center for Workforce Development at Columbus State Community College. The Regional Data Roundtable is seeking 45-minute session proposals that share the tools, analyses, projects, and lessons advancing data work in Central Ohio. All topics and skill levels are welcome. Proposals are due Monday, November 30, 2026. Submit a proposal.

Team meeting or presentation

Drop the promo slide into your deck. It carries the QR code, so people can scan it from their seats. Something to say over it:

> Data Day's Call for Proposals is open through November 30. If you've done something this year that another city, county, or nonprofit could use, it's worth 45 minutes. Grab the QR code or ask me for the link.

Nudging a potential presenter

A personal ask from you is far more persuasive than any post.

Email

> **Subject:** You should present at Data Day
>
> Hi [Name],
>
> I'm helping spread the word about Data Day 2027, MORPC's annual conference for Central Ohio's data community. It's February 18, and the Call for Proposals is open through Monday, November 30.
>
> Your work on [specific project] came to mind right away. I think a lot of people in the room would want to hear how you [what they did / what they learned].
>
> Sessions are 45 minutes with plenty of time for questions, and the form is short: https://tinyurl.com/dataday-cfp
>
> No pressure either way, but I'd love to see you on the program.
>
> [Your name]

LinkedIn message or chat

> Hi [Name], the Data Day 2027 Call for Proposals is open through November 30. Your work on [thing] would make a great session, and the form only takes a few minutes: https://tinyurl.com/dataday-cfp

In person or by phone

> Have you thought about presenting at Data Day? Proposals are due November 30, and what you did with [thing] is exactly the kind of session people get a lot out of. I can send you the link.

Reminder, the week before the deadline

> Hi [Name], a quick reminder that Data Day proposals are due Monday, November 30 (right after Thanksgiving). Here's the link again if you're still thinking it over: https://tinyurl.com/dataday-cfp

---

If they ask something you cannot answer

Common ones: whether their idea fits, how many sessions there are, when they'll hear back, whether they can co-present, whether there's a speaker fee. The answer is the same for all of them.

> That's a good one for Jordan Inskeep at MORPC, jinskeep@morpc.org. Let me connect you.
